NILAXSAN SUVENDRALINGAM

SOFTWARE ENGINEER | FULL-STACK DEVELOPER

Trincomalee / Sri Lanka | +94 74 070 7728 | s.nilaxsan63@gmail.com
Portfolio: nilaxsan-dev-portfolio.vercel.app | **GitHub**: github.com/NilaxsanSE | **LinkedIn**: linkedin.com/in/s-nilaxsan-96b762341

PROFESSIONAL SUMMARY

Software Engineer and Computer Science graduate with hands-on experience developing and delivering web, mobile, and industrial software solutions. Experienced in full-stack development using React, TypeScript, Python, FastAPI, Node.js, and modern database technologies. Skilled in REST API development, database design, system integration, and building scalable, user-focused applications. Experienced in collaborating with international stakeholders, translating business requirements into technical solutions, and contributing to projects from development through deployment.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, Java, PHP, SQL, C
Frontend: React, HTML5, CSS3, Vite
Backend & APIs: FastAPI, Node.js, Express.js, REST APIs
Databases: PostgreSQL, PostGIS, MongoDB, MySQL, SQLite, Firebase
Mobile & Desktop: Android Development, Java Swing
Tools & Platforms: Git, GitHub, Docker, Visual Studio Code, IntelliJ IDEA, Android Studio, WordPress, Raspberry Pi
Technologies & Concepts: Full-Stack Development, Object-Oriented Programming, Database Design, API Integration, IoT Systems, Geospatial Systems

PROFESSIONAL EXPERIENCE

Technology Center Lanka (PVT) LTD — Sri Lanka
Technology Director & Software Developer | May 2026 – Present

- Develop and deliver full-stack web, mobile, and industrial software solutions for international client projects, working across frontend, backend, databases, and system integration.
- Design and implement applications using React, TypeScript, Python, FastAPI, Node.js, PostgreSQL, PostGIS, and REST APIs based on client and business requirements.
- Coordinate technical requirements, development priorities, testing, deployment, and project updates with developers, project management, and international stakeholders.
- Provide first-level technical support, including initial issue analysis, troubleshooting, user support, and coordination of technical issues requiring further development or escalation.
- Support operational and accounts-related activities, including expense tracking, payment records, invoices, and coordination of company financial documentation.

PROJECTS

SIPES IVX — Industrial Visualization & Management Platform | React, TypeScript, FastAPI, PostgreSQL, PostGIS, MapLibre GL JS, Docker

- Developed a full-stack industrial visualization platform for managing hierarchical assets and locations through synchronized object, map, and schematic views.
- Designed and implemented recursive object hierarchies with unlimited nesting, parent-child relationships, status management, and PostgreSQL-based data persistence.
- Integrated PostGIS and MapLibre GL JS to visualize spatial objects and enable interactive map-based navigation into industrial facilities and assets.
- Implemented schematic visualization, object navigation, breadcrumbs, status indicators, and synchronized routing across tree, map, and schematic interfaces.
- Containerized application services using Docker and deployed the system to a server environment for client review and continued development.

KUR SOUND — Android Music Application & Admin Platform | React Native, Android, REST APIs, Offline Storage, Web Admin Dashboard

- Developed an Android music application and administrative platform for managing and distributing a server-controlled music library to client devices.
- Implemented online and offline playback workflows, enabling downloaded music and application functionality to remain available in locations without internet connectivity.
- Developed features including music downloads, favorites, playback modes, search, sorting, list/grid views, multilingual support, and synchronized music ordering.
- Built and enhanced administrative functionality for uploading, organizing, publishing, and reordering music content delivered to the Android application.
- Contributed to application stability, asynchronous background operations, APK versioning, update distribution, testing, and production deployment.

Guardian Node – Final Year Research Project | Python, TensorFlow, Raspberry Pi, Firebase, Java

- Designed and developed a smart IoT-based safety monitoring system to detect dangerous sounds such as screams and gunshots in real time.
- Implemented audio classification and event-triggered recording using Raspberry Pi, microphone array, and camera module.
- Developed a cloud-connected alert system to transmit incident details, location, and recorded evidence for faster emergency response.
- Evaluated system performance based on detection accuracy, reliability, and responsiveness during testing.

New Star Kid's Wear – E-Commerce Management System | React, Node.js, Express.js, MongoDB

- Contributed to the development planning of a web-based e-commerce management system for retail operations, including product, inventory, supplier, and order management.
- Participated in requirement analysis, system planning, risk identification, and software development lifecycle documentation within an Agile team environment.
- Supported the design of business workflows for customer ordering, role-based access, and administrative dashboard functionality.

Driving License Management System | MongoDB, Express.js, React, Node.js, CSS

- Developed a full-stack web application to manage driving license applications, renewals, and user records efficiently.
- Implemented user authentication, administrative dashboard functionality, and CRUD operations for data management.
- Designed a responsive user interface to improve usability and support real-time interaction.

EDUCATION

BSc (Hons) in Computer Science
SLIIT City Uni - University of Bedfordshire, UK | 2025 – 2026

Diploma in Computer Science and Software Engineering
SLIIT City Uni | 2023 – 2025
GPA: 3.35 / 4.00

G.C.E. Advanced Level – Mathematics Stream
T/ Orr's Hill Vivekananda College | 2016 – 2019

G.C.E. Ordinary Level
T/ Orr's Hill Vivekananda College | 2005 – 2016
